## REVIEW

Movie: *Mulan*

An awesome musical Disney Animation about Fa Mulan, a 16-yr-old Chinese girl, who must marry. When she learns her father must go to war because he has no sons, Mulan decides *she* will risk everything and go to war disguised as a man. Age 6+ for some Disneyized fighting.

## THE DAILY INTERVIEW

Kassidy Nowlin

A big part of most of our lives that many of us may not notice is music. Well, Kassidy Nowlin has certainly realized it is important to her! "My favorite genre is K-Pop, but I will listen to almost anything except country music," she says. Her favorite song is ON by BTS, a K-Pop group. "I love singing and we've always had music around the house growing up, so music is really a central part of my life," explains Kassidy. Music has recently entered Kassidy's life another way, too - she's picked up the Piano. When asked why this is the instrument she chose, she says "It seems like a fun instrument, plus it's good for composing," she says: she wants to begin composing songs with her friend, Ari. She *hates* country music above all else - "Old country is OK, but new country and American Pop music are terrible." Music also helps her focus and can put her in a better mood when she's not in a great one.
